Erasmus+

What is Erasmus+?

The Erasmus+ programme provides life-enriching opportunities for EU citizens to develop their career, with options available for those in participating EU countries to spend up to 12 months in the country of their choice.

Teacher development programme

Our Erasmus+ Teacher Development programme is the ideal choice if you want additional coaching for your professional development.

Available at our British Council accredited schools in London and Eastbourne, our Teacher Development course aims to make you a stronger and more confident teacher. To do this, our teachers focus on developing your teaching methods and lesson style if you are an English teacher or you deliver your subject in English.

Gain a better understanding of communicative teaching

This modular course gives you the opportunity to learn more about the communicative teaching methods that we use in the UK. You will look at the theoretical and practical aspects of lessons and gain a better understanding of how varied methodologies create effective learning.

Adopting the CLIL methodology

Content and Language Integrated Learning (CLIL) can be incorporated into the programme. Aimed at teachers who deliver their subject in English, the course will broaden your range of teaching methods to create engaging lessons. You will be able to put the CLIL methods into practice by delivering sessions to other teachers.
